

DEPARTMENT CHAIR, William B. Burnsed, Jr. Department of Mechanical, Aerospace, and Biomedical Engineering. The University of South Alabama invites nominations and applications for the position of Chair of the William B. Burnsed, Jr. Department of Mechanical, Aerospace, and Biomedical Engineering at the rank of Associate Professor or Professor. The expected start date is August 15, 2022. Minimum qualifications include an earned doctorate in Mechanical Engineering, Aerospace Engineering, Biomedical Engineering or a closely related field. The Chair is expected to provide strategic vision and leadership to the Department and to engage in teaching, research, and scholarship. Successful candidates must show accomplished funded research activity and scholarship; a commitment to excellence in teaching and research; exceptional verbal, organizational, and interpersonal skills; demonstrated leadership ability; and a desire and ability to collaborate effectively across disciplines, colleges, and administrative structures.

The William B. Burnsed, Jr. Department of Mechanical, Aerospace, and Biomedical Engineering provides an ABET-accredited BSME program with optional concentrations in Aerospace Engineering and in Biomedical Engineering. The department offers an MSME program, and participates in the doctoral program for Systems Engineering and in the PhD program in Biomedical Engineering in conjunction with the USA College of Medicine. Enrollment in the undergraduate and graduate programs is in excess of 300 students. The Department is housed in Shelby Hall, a 155,000 sq. ft. state-of-the-art Engineering and Computing Sciences building. The department has active research programs in a variety of areas including materials engineering, flight control systems, medical imaging and cellular mechanics. Mobile is home to a growing aerospace corridor, including a large U.S. aircraft assembly facility. The University's teaching hospitals and clinics anchor Mobile's rapid expanding health care industry.

The College of Engineering has four departments: Chemical and Biomolecular Engineering, Civil, Coastal & Environmental Engineering, Electrical and Computer Engineering, and Mechanical, Aerospace, and Biomedical Engineering.
